For Immediate Release:

When a friend of the Rhode Island SPCA saw the tragic story of the cat named "Wolf", who was shot and ultimately killed by a BB in the City of Fall River, Massachusetts, he felt compelled to do something about it.

Despite the incident being outside of the Rhode Island SPCA's jurisdiction, this generous supporter still recognized that animal cruelty knows no boundaries.

While he wishes his identity to remain anonymous, he is offering a \$2000 reward for any information leading to the arrest and conviction of the suspect in this case.

We hope this act of kindness encourages those with information to come forward, providing a swift resolution to the case, closure for the family, and justice for "Wolf".

The reward is simply being offered by "A Friend of the Rhode Island SPCA"
